

Aurea Cento 100 – Optimized immune regeneration through a uniquely calibrated mixture of essential oils.

A unique formula

The unique skill of bringing together a delicate mixture of natural ingredients which have proven their beneficial effect for humans over thousands of years, has resulted in a new formulation with a very high efficacy in strengthening the immune system.

The practical experience with, and further optimizing of AUREA CENTO 100 extends over a period of 12 years in several medical and healing practices in Germany.

Efficacy

AUREA CENTO 100 brings about general refreshment and rejuvenation. The body is cleansed and the immune system is strengthened. This is realized by its strong anti-bacterial, anti-mycotic and anti-viral properties.

AUREA CENTO 100 also causes a very significant increase in glutathione production in the organism, the peroxidation of which constitutes a highly effective, natural anti-oxidant.

It protects for example the erythrocytes from harmful oxygen- and lipid radicals and thus supports the oxygen transport in the somatic cells. AUREA CENTO 100 normalizes the cell division and with that the regeneration of the entire body.

The secretion of the various mucous membranes is stimulated, for example in the intestines and the respiratory tract, while at the same time stabilizing its flora. The entire lymphatic system is activated, amongst others through promoting the production of the tissue's capillary fluid. The stimulation of the phagocytic activity is unmistakable.

AUREA CENTO 100 activates the lungs' - as well as the cells' respiration and thus advances amongst others the CO- and CO₂ detoxification of the body. The enhanced secretion in the bronchia, air tracts, lungs and secondary cavities is pleasing, as is the reduction of phlegm.

This broad spectrum of efficacy is nevertheless paired with a virtual absence of side effects. The only known effect can be some increased bowel movement during the first week of use, as a result of the cleansing of the intestinal tracts. If desired, the dosage could temporarily be moderated.

Administration and dosage

AUREA CENTO 100 can be taken from 3 years on. This highly engaging product is not advised below 3 years. The use of plant essences in the case of pregnancy is less advisable and should in due course be monitored closely by a health professional.

General dosage: for prevention, adults take 5 drops, 2 to 3 times daily. In the case of severe challenge of the immune system, 10 drops are taken three times a day over a period of at least 9 months.

Best use pipette to extract from bottle and apply in the mouth. Leave in the mouth for one minute before swallowing. Don't use within 10 minutes before or after eating or drinking.

Attestation of Efficacy

In order to further establish the long time experienced efficacy, basic clinical tests were carried out in Cameroon. The issue of immune protection, strengthening and enhancement is a primary need for those whose immune system is under severe attack by ulterior factors like with those infected with HIV / AIDS.

Prof. Ndumbe, Virologist, Director of the Centre for the Study and Control of Communicable Diseases, Dean of the Faculty of Medicine and Biomedical Sciences of the University of Yaounde, certifies that his Centre has tested the product Aurea Cento 100 from WELU Enterprise, Cameroon, and attests that it has an immune restoration function. *"The drug, if taken for three months by HIV-infected subjects with CD4 count higher than 250, will result in the maintenance of the immune system at high levels. No side effects have so far been noticed with this drug.."*
